EL AÑO DE LA OFENSIVA ALIADA

Nueva York.-- Raymond Gram Swing, comentarista de radio americano, ha dicho que 1943 ha sido el año de transición aliada entre la defensiva y la ofensiva.

Swing dice: "A partir de Stalingrado los rusos y los alemanes han cambiado sus papeles respectivos en el frente oriental, y éste es el acontecimiento destacado del año.

La participación de los Estados Unidos y de la Gran Bretaña en 1943 ha sido real y alentadora, en particular la producción de barcos y armamentos. La campaña africana, a la que ha seguido la campaña de Italia, condujo a la destrucción de la potencia italiana. Fue la primera derrota de la ideología fascista dentro de su propia ciudadela. El Mediterráneo quedó libre y las rutas marítimas fueron acortadas. El flanco meridional del enemigo quedó expuesto. Esta sucesión de hechos complementa la segunda gran hazaña aliada del año.

Otra, ha sido la victoria en la Batalla del Atlántico. Sin ella, el ataque contra la llamada fortaleza de Hitler no habría podido efectuarse tan pronto ni con tanta fuerza. Es posible que aún sea más amargo el fracaso de la campaña submarina de Hitler, después de su desengaño en Stalingrado.

El desarrollo de la guerra aérea contra Alemania ocupa un puesto de relieve entre las cosas de importancia logradas durante el año. Aquí hemos visto una participación conjunta de aviadores británicos y americanos y de las industrias de ambos países.

Otra faceta del año pasado que merece un lugar destacado ha sido la unificación de la guerra aliada. El puente tendido hasta Rusia que dó terminó y fué cruzado, inaugurando una camaradería prometedora de victoria.

El trabajo de los estados mayores americano y británico ha sido bien coordinado, culminando en la labor combinada sin precedentes desarrollada en Africa y en Italia. La conferencia de Teherán aparece ya con una perspectiva tan lógica, inevitable y esencial, que se da ya como una cosa natural, pero en este aspecto no ha ocurrido nada en este año que se le equipare en importancia. Ha sido uno de los sucesos decisivos de la historia de nuestro tiempo. No sólo trajo la promesa de victoria militar, sino que confirmó el anhelo de ganar la paz que ya fué trazada en la conferencia de Moscú.

En el Pacífico, también ha sido un año de transición de la ofensiva a la defensiva. Puede decirse que la conferencia de Teherán ha

GANZ EUROPA ERHEBT SICH GEGEN DIE NAZIS

Sabotage, Revolte nehmen zu, da die Zeit der Invasion nahekriecht.

Da die Zeit fuer Angriffsunternehmen, die laut Aeusserungen der Teheraner Konferenz vom Osten, Westen und Süden her unternommen werden wuerden, immer nahekriecht, nehmen Revolte und Sabotage innerhalb Hitlers wandernder europaischer Festung mehr und mehr zu.

Im Laufe der letzten Woche wurden die folgenden antinazistischen Aktionen gemeldet:

DÄNEMARK: 50 bewaffnete Saboteure brachten die Varde Stahlwerke in Suedwest-Juetland zur Explosion. Beträchtlicher Schaden wurde verursacht und eine neu erbaute elektrische Anlage wurde vollkommen zerstört.

ITALIEN: Italienische Patrioten sind mit Fallschirmen hinter den deutschen Linien

niedergegangen und haben die deutsche Verbindungslinien zerstört, Bruecken in die Luft gesprengt und verursachten Lawinen in den Gebirgspassen, durch die die Nazi-Truppen durchgehen mussten. Die Italiener stoeren die Nazis mit ihren beweglichen Gruppen von ungefähr 40 bis 50 Mann, die von Arme-Offizieren geleitet werden. Nach Berichten der Schweizer Zeitung "Basler Nachrichten" kaempfen 30,000 Italiener allein im Bezirk von Venedig gegen die Deutschen.

FRANKREICH: 2 Bomben explodierten vor einem deutschen Theater auf dem Bellecour-Platz in Lyon. Als 200 deutsche Soldaten aus dem Theater flohen, wurden sie sofort von vielen Fenstern, die den Platz ueberblickten, beschossen. Die Nazis haben

SCHLAGZEILEN DER WOCHE

SONNTAG, 19. Dez. Die russische Winteroffensive ist im Anzug. Die gesamte Front von Leningrad bis zur Ukraine gefriert unter der Schneedecke. Neutrale Quellen berichten, dass das Zentrum Berlins, nach dem schweren Angriff der R.A.F. von Dienstag Nacht, noch immer lichterloh brennt.

MONTAG, 20. Dez. Neue russische Offensive an der baltischen Front. Die deutschen Verteidigungslinien südlich von Nowel durchbrochen. Die Russen stehen 110 Km. vor der polnischen und lettlandischen Grenze. Drei deutsche Soldaten und ein Russe, die russische Zivilisten gemueßt und ermordet haben, werden in Khar'kov von einem Militaergericht zum Tode verurteilt. In Italien eroberd die 5. Armee San Pietro, auf dem Wege nach Rom.

DIENSTAG, 21. Dez. Amerikanische Bomber der nordwestafrikanischen Luftwaffe eroeffnen eine neue Phase in den Luftangriffen auf Nazi-Europa, indem sie Angruebe und Innschueß mit Bomben belegen. In Spanien greifen General Franco die falangistische Miliz auf. Die Russen durchbrechen die von Nowel nach Witebsk fuehrende Eisenbahnlinie.

MITTWOCH, 22. Dez. Fortgang der alliierten Luftoffensive an allen Fronten. 2,000 T. Bomben geben auf Frankfurt am Main nieder. Fliegende Festungen greifen den Flugplatz von Eleusis bei Athen an. Die Verschiebebahnhöfe von Sofia werden von Liberators mit Bomben belegt.

DONNERSTAG, 23. Dez. An der baltischen Front durchbrechen die Russen die deutschen Hauptverteidigungslinien vor Witebsk. Russische Fallschirmtruppen operieren in den baltischen Staaten.

FREITAG, 24. Dez. An der italienischen Ostfront vertreiben die Einheiten der 8. Armee die letzten Deutschen aus Ortona. In ihrem Vormarsch auf Polotsk befinden sich die Russen nur noch 70 Km. östlich der ehemaligen polnischen Grenze. Portugal fordert die Raueumung der von den Japanern besetzten Insel Timor im Sued-Pazifik. Berlin von britischen Bombern erneut schwer angegriffen.

SAMSTAG, 25. Dez. General Dwight G. EISEN. BOWER, der die alliierte Invasion in Nord-Afrika befehligte, wurde zum Oberbefehlshaber der amerikanischen Streitkräfte der zweiten Front ernannt. 1,300 Flugzeuge der amerikanischen 8ten Luftsturm-macht setzen in 96-stündigem nonunterbrochenem Einsatz die Luftoffensive fort.

GELANDEGEWINN. Im Laufe der letzten Woche haben die Russen eine neue Offensive an der baltischen Front, südlich von Nowel, unternommen. Die Freile setzt die Stelle, an der die Rote Armee durch stark befestigte Verteidigungs-Zonen 80 Kilometer breit und 35 Kilometer tief durchgebrochen ist. In heftigsten Kämpfen haben die Deutschen 22,000 Tote auf dem Schlachtfeld gelassen.

HITLERS MILITÄRISCHE LAUFBAHN BEGUTACHTET

Vor 2 Jahren hat Hitler die tatsächliche Führung der deutschen Armeen von seinen Generalen uebernommen und den Oberbefehl sich angeeignet. Seine Laufbahn als militaerischer Fuehrer ist kurzlich von dem amerikanischen Kongress-Mitglied, Andrew J. May, besprochen worden. Herr May ist auch der Vorsitzende im amerikanischen Repräsentations-Ausschuss fuer militaerische Angelegenheiten.

Zu der Zeit, in der Hitler den personlichen Oberbefehl uebernahm, waren die deutschen Armeen vor den Toren Moskau, sagte May, aber weil man sich hauptsächlich auf Hitlers Hochachtungsmass militaerischer Eingebungen und auf ein Mindestmass militaerischer Intelligenz verliess, wurde die nazistische Kriegsmaschine nicht nur lahmgemacht, sondern auch in allen Kriegsschueßplanen zurueckgeworfen.

Einmal, war Kairo nur einige Flugminuten von Rom'seils Hauptquartier entfernt. Jetzt ist Kairo so sicher, dass es zum

The Rome Radio last night said the Badoglio Government wants peace. An Armistice appeal was reported on its way to London and Washington, while Italian troops were reported moving on the Brenner Pass to block further entry of Germans. Badoglio dissolved the Fascist Grand Council as soldiers battled blackshirts in Milan.

The War's mightiest aerial offensive went into its fifth day, as U.S. Flying Fortresses smashed targets 95 miles from Berlin in their deepest penetration of the war. Blazing Hamburg was hit for the sixth time in 72 hours as RAF night bombers rained 2,300 tons of explosives on the city.

In the Balkans Axis satellites were rocked by Mussolini's fall, and cabinets entered crises. Hungary was reported to be putting out peace feelers.

In Sicily American troops gained 15 miles on a 25 mile front in North Sicily, closed in with Canadians toward last Axis defenses in the Catania-Messina pocket.

The Russian Red Army is 11 miles from Orel, from which Germans are reported to be withdrawing troops in order to avoid another Stalin-grad disaster.

In the Pacific wild hand-to-hand fighting raged 2,000 yards from Munda Airfield as the Americans advanced slowly through suicidal Japanese resistance. Wake Island was bombed for the second time in four days in a possible invasion prelude, and Kiska was pounded by 19 heavy raids.

In China Chinese troops killed hundreds of Japanese in a bold raid far behind the front lines in Shantung Province, while the German radio reported an Allied air raid on Japanese held Hong Kong, and American medium bombers and fighters attacked three Jap bases in North Burma.

From Bern: Calling on Italians to have patience in the present moment of crisis which is the greatest in Italian history, the "Giornale d'Italia" stated the attitude of Italians must be dictated by the nation's precarious situation rather than their aspirations. Lauding Badoglio, the leading editorial said: "The new Government is entrusted with a difficult task at this moment of the greatest crisis in Italian history. We must pay homage to its courage and show comprehension and patience toward it. Those who suffered for liberty must, above all, give an example of Italian political intuition. This group is greater than is generally believed and represents a strong force which must place itself at the service of the new Government, which is the best manner to serve the nation and liberty."

.. Rumors of all sorts and sizes, none of them confirmed, had (1) Pope Pius, acting as official intermediary for the Italian Government, asking U.S. Chargé d'Affaires at the Vatican, Harold Tittman, for Allied Armistice terms; (2) General Eisenhower in possession of full details of Allied Armistice terms and prepared to handle all the military aspects should an Armistice be arranged; (3) Mussolini in Spain; (4) Mussolini in a villa between Rome and Ostia; (5) Mussolini not arrested while attempting to enter Switzerland; ..

Reports through Spain said Badoglio was doing his utmost to prevent German troops from establishing a strong bridgehead in North Italy, thus keeping his hands free for surrender, and that the majority of the reports on German troop movements across the Brenner Pass originate from German sources. Badoglio is stated to have ordered the immediate return to Italy of four Italian divisions in France, 23 in the Balkans.

"Dagens konst uttryck för vildens symbolism."

Är det inte som evigheter hade gått sedan den vårdag, då Karl XV:s krånande bronsprägare för första gången prusterade fram för stockholmsarna ögon därnär på den vita Djurgårdslocken? Tiden har fått nytt ansikte! Men "mannen för dagen", den invigningsdagen, den 3 maj 1909, har behållit sitt och fyller på torsdagen sina 75 — Malmöpsågen och globetrottern, Karl XV-skulptören, målaren och tusenkonstnären Charles Friberg.

Brödde han sig om det skulle han kunna sitta på sitt viskört "ende i Sveriges levande skulptur av kunglig rättsstyrelse". Men Karl XV-verket får vara viskört nog, och i 6 år tiden inte längre skulptur som förr, tycker konstnären, där han nu njuter sitt otium bland de gamla

nummer i serien Misionens folkböcker, "En flickas väg i Rhodesia". Ellen Söderström utger en missionsbok för skrifvelser "Söndroppe och Lotusbloom". K. F. U. M.-sekreterare Erik R. Berg berättar under titeln "Bländ krigsfångar och andra", minnen från de tyska krigsfångarerna.

"Biskop Thomas' friluftsliv" har till Thomas-jubiliet tonsatts av Oskar Lindberg. Kompositionen föreligger i tre or-

numera med pensel och pensel, banjo allor fio, bilder han böcker, styr sig egenhändigt en xy kostym eller styr om sina vänners, som alltid varit hans hobby, smitkar möbler eller leger pitfiga mid-dager i minnet av fantasiaktiga kryddor och exotiska dofter från världensspår-nande vikingatider, som bl. a. förde honom som svensk utställningskommis-sarie till Buenos Aires 1910.

Konst skall vara som en dikt

Uppfinningsrikedomen och verkstam-hetsluten är det intet få på, den flodas lika ymnigt som på den tiden, på 90-talet, då konstnären högg i sten hos Fa-guile i Academie des Beaux Arts och kring sekelskiftet arbetade sina tio år i Amerika, vann tävlingsarna för Wenner-bergsstatyn och Industriministern och uppfann den fribegrepta flyrvästen för räddning av drunknande. Men det är starkare med ögonen, erkänner han, och då får en konstnär göra som en slungare bär gör, när roten tar slut, ta den och sätta punkt för framtidsand. Då får man leva på minnen.

— Och så gott är det, slutar hr Fri-berg. Konstnären nu för tiden begriper jag mig inte på. På min tid var man impressionist och naturalist och kände, att man menade något med det man skildrade. Men nu är det både i kon-sten och musiken, tycker jag, bara frigen om arkaism och en symbolism, som på-minner om sederhavsvildarnas och som inte kan fås komma annat än baklän. Låtom oss återvända till naturen, men utan att vränga till den, så att den lik-nar som det moderna måleriet inte liknar nå-enting alla. Konstnären skall vara som en dikt. Och en dikt utan mening är det ingen mening i...

APPORTE PAR AVION

LONDRES, LE 20 JUILLET 1944

Honneur aux Forces Françaises de l'Intérieur

Il ne se passe pas un jour sans que les Forces Françaises de l'Intérieur n'aient l'honneur d'un communiqué.

Que ce soit par le communiqué du Quartier Général Suprême allié ou par les communications faites par les milieux français autorisés de Londres, les Nations Unies sont tenues au courant de la bataille que n'ont jamais cessé de livrer les patriotes français combattant l'envahisseur sur le sol natal.

Les Allemands et les traîtres ont cherché, mais en vain, à flétrir du nom de "terrorisme" les actes audacieux et habilement conçus des Français qui, opérant sous les ordres du général Koenig, frappent l'ennemi là où les coups portent le plus.

De guerre lasse, les Allemands menacent d'exécuter comme francs-tireurs tous les soldats des F.F.I. qui tomberaient sous leur coupe.

Leurs alliés veillent.

Pour ceux de nos lecteurs qui n'auraient pas connaissance de l'avertissement donné aux Allemands par le général Eisenhower, Commandant Suprême des Forces Expéditionnaires alliées, nous reproduisons le texte de ce document qui ne prête pas à équivoque :

"Le Commandant Suprême des forces expéditionnaires alliées possède aujourd'hui la preuve formelle que les forces allemandes d'occupation en France, se conformant aux déclarations faites le 7 juin 1944 par le Commandant-en-Chef des armées allemandes de l'Ouest, traitent les membres des groupes de résistance français comme des francs-tireurs.

Les F.F.I. font partie des F.E.A.

"En conséquence, le Commandant Suprême déclare :

"1) Les Forces Françaises de l'Intérieur constituent une force combattante placée sous le commandement du général Koenig; elles forment une partie intégrante des forces expéditionnaires alliées;

"2) Les F.F.I. ont pris ouvertement les armes contre l'ennemi et ont reçu ordre de conduire leurs opérations en conformité avec les lois de la guerre; elles portent un insigne distinctif et le général Eisenhower les considère comme une armée placée sous son commandement;

"3) Dans ces conditions les représailles exercées contre les groupes de résistance constituent une violation flagrante des lois de la guerre auxquelles les Allemands sont tenus de se soumettre. De tels crimes ne peuvent que fortifier la détermination des Nations Unies de mener rapidement la guerre à une fin victorieuse, afin que justice soit rendue;

"4) Le Commandant Suprême est résolu que tout effort soit mis en œuvre pour découvrir et traquer les auteurs des atrocités commises contre les membres des forces armées placées sous son commandement. Des mesures ont déjà été prises à cette fin. Les coupables seront livrés sans délai à la justice."

Le général Koenig, Commandant des F.F.I., en conférence avec le général Montgomery et M. Coudet, Commissaire de la France libérée, au Q.G. britannique en Normandie

Keep America Out of War by Helping to Restore Peace in the World and Defeating Fascism!

Our country is against war. It is interested in the preservation of peace for America, for Europe and for the world. What can America do to restore peace?

The United States is not directly involved in those rivalries which have led to the invasion of Poland. It is in the best position to exert its great moral and political influence to help check fascist aggression—to prevent new Munich betrayals, to help prevent the expansion of this new world war!

To be most effective America must first of all strengthen and reinforce her internal affairs. In this hour of crisis the urgent needs of our nation are:

- American national and social security.*
 - Put America back to work.*
 - Maintain the American standard of living against all attacks.*
 - Guarantee rights of unionization, collective bargaining and trade union standards in all industries.*
 - Defend American Youth—the Defenders of America.*
- To insure such a program it is necessary to have:
- Unity of the American people around the New Deal and its Progressive policies.*
 - A Democratic front of the people to defeat long reaction in 1940.*

To protect ourselves against the grasping hands of the war profiteering speculators, we must:

- Curb the monopolists and profiteers.*
- Nationalize the munitions industry.*
- Replace the monopolists on the War Industries Board with representatives of the people.*

The only guarantee that this program for the American people will be carried out is to:

Re-establish and defend American democracy.

~~THE~~ ENEMY IS AT HOME

UNITE AGAINST THE DEATH-MERCHANTS!

The country is organizing for war. Relief funds are slashed to throw cash into the war-machine. Factories are being streamlined for war. The M-Day plans are ready for action. A "Hitler plebiscite" is under way on the WPA, to throw off the rolls any worker who won't sign up to support the government. In spite of the "Neutrality" Act, American arms will go to every battlefield in Europe via the so-called "neutral" nations.

This war is an imperialist war over markets. Workers gain nothing from its hunger, misery and death. Only workers revolution against the bosses will stop the war. When the U.S. goes to war, we must fight to defeat our real enemies, the U.S. imperialists. We must turn the war into a war against our capitalist masters, and set up a government of workers councils.

But that is a job to begin now. Whether workers agree on busting the system wide open or not, anybody knows enough to hit back when he's kicked in the teeth. We have got to organize united front action by all workers' organizations against the bosses' war moves today.

UNITE AND FIGHT!

MAY DAY-1943

FELLOW - AMERICANS: Working Men and Working Women:

This Spring, 1943, can be decisive for the outcome of the war and the future of humanity.

This is the thought that should be grasped with realism, courage and boldness by all American patriots. Especially should this be realized by American Labor on this May Day, the traditional day of the world solidarity of labor, as our valiant soldiers fight to bring the North African campaign to its final phase.

For in the coming weeks and months will be decided the crucial issues—

Will America and Britain seize the present opportunity made possible by the historic struggles of the Red Army to invade Western Europe now? Will America and Britain strike out from our bases in England and Africa this Spring and join with the Soviet Union in a two-front war against Hitler Germany?

Or will America and Britain continue to hold back? Will we allow Hitler to gain time after his defeats at Stalingrad and elsewhere on the decisive Eastern Front? Will we allow Hitler to accumulate new striking power and once again seize the initiative in the Donets region, or in new drives through Spain, Turkey, or against Britain itself?

This is the grave decision which faces the entire nation, and especially the American working people.

Hitler and the Axis know their peril. They are striving to maintain:

"All Quiet on the Western Front."

If Hitler is allowed to continue concentrating his main forces to strike at our ally, the Soviet Union, without a major diversion in the West, new disasters face America and the world. The war will be prolonged. Our casualties will be enormously increased. Victory itself will be endangered.

By hesitation and delay in invading Europe, we forfeit our chance to crush Hitler in 1942. We cannot afford to miss our opportunity in 1943. In the interests of our national security we cannot allow the present situation to go on where the full weight of the war is placed upon one ally, the Soviet Union.

We must strike now from the Allied stronghold in England. We must extend our African offensive to Europe this Spring. We must organize real coalition warfare of

LABOR, BACKBONE OF THE NATION ⁹⁷⁸

It is time for American labor, the backbone of the nation, to face these realities and the stern duties that flow from them.

American Labor gave May Day to the world in 1887 as the traditional day for uniting and strengthening the world brotherhood of Labor in a common cause.

What greater common cause has American labor ever faced with its countrymen and its brothers of the world than the task of defending democratic liberties and national independence against the world-slavery of Hitlerism?

On this May Day, sixteen months after America entered the war for the defense of our national freedom against Axis aggression and domination—fighting months in which our country's prowess has been demonstrated in North Africa and Guadalcanal—the American working class faces the greatest responsibility in its history.

It now falls to labor to rouse and unite our country around our Commander-in-Chief to sweep aside all the obstacles which still delay the fulfillment of the American-Soviet-British agreements of June 11, 1942, and of the Casablanca decisions: **To Invade Europe!**

On this May Day, the American working people should launch a nation-wide drive for the opening of the Second Front. Labor and the people should resolve to deal Hitler his death blow in 1943, crushing him in the vise of a two-front coalition attack on the European continent, thereby shattering the entire Axis.

* * *

WHAT HOLDS UP VICTORY?

What holds back the knock-out blow which America together with our allies can and must deliver against the vital center of the Axis, against the Nazis in Europe? What holds back our government from carrying through its objectives to deliver its main blows first against the heart of the Axis—Hitler Germany?

In the first place it is the treacherous activities of the appeasers and defeatists. These forces still occupy influential positions in Congress, the State Department and in other high places. They oppose and delay the Second Front.

These pro-fascists are opposed to the destruction of Hitlerism. They seek at all costs to prevent coalition warfare. They strive to break the fighting alliance of our country with our Soviet and British allies, by fanning old prejudices and distrust, and by sowing discord

We must strike now from the Allied stronghold in England. We must extend our African offen-

sive to Europe this Spring. We must organize real coalition warfare of the U.S.A., the U.S.S.R. and Britain and strike at the Nazi beasts together, from all sides. And this, also, is the way to speed the defeat of the Japanese militarists.

Support Our Commander

AMERICA HAS A WAR TO WIN

At Pearl Harbor, on December 7, the Axis fired the first shot. Japan held the gun while Hitler pulled the trigger. American blood spilled at Hawaii, Guam and Wake will be avenged. We will fire the last shot.

WE KNOW WHAT WE ARE FIGHTING FOR

To lose the war means to lose everything—our national independence—our freedom—our labor organizations. It means the same political and economic slavery as in Nazi occupied countries.

To win the war means to free the world from the most frightful catastrophe that ever threatened the human race.

But victory will not be presented on a silver platter. It will take much sweat and toil and sacrifice.

WHAT MUST BE DONE TO WIN THE WAR?

1. Build an army of ten million. We must build the biggest Army, Navy and Air Force in the world— and do it quickly.
2. Outproduce the Axis. The country with the largest number of planes and tanks will win this war. We've got the biggest production plant in the world. Let's use it!

3. Protect our homes and industries. Let's build impregnable defenses on the home front. There is a job for every citizen. Volunteer for civilian defense. To your posts!

This is one war—though fought on every ocean and continent. We are in one boat with Great Britain, Russia and every other free nation. We must win or we are lost.

SINGAPORE'S FALL AND OUR ANSWER

Reprinted from Washington Star February 17, 1942

THE FALL of Singapore is a defeat for the United Nations of a serious character. It must be confronted neither with defeatism, panic nor complacency.

The fall of this key naval bastion in the Far East means that the peoples of this world who refuse to bow to Nazi-Tokio slavery face a more difficult

struggle entailing greater sacrifices—before they achieve victory. Let there be no mistake. For our nation, as well as for all of our allies, the peril has substantially increased; but the United Nations possess all the requisites for smashing the Axis if the resources of manpower and industrial capacity are

**Your Country
is in Danger!**

It is in danger because it has been plunged deep into the most useless, most criminal, most bloody war of all ages by the fascists right here at home.

Roosevelt, Knudsen, Morgan, Rockefeller, and their class are ready to send you—your son—your brother—your husband—to die on a foreign battlefield in a miserable war for their own profit! This is why they have declared an "unlimited national emergency."

They plan to outlaw trade unions, strikes, all organizations of the people, to stifle the resistance to their war and hunger program. They are planning to regiment the entire population, to conscript women, in the name of "civilian defense." They are "defending the freedom of the seas" and shattering all of the people's freedom.

This is the fascist threat to our country. It sits in the White House and holds council with Wall Street!

You do not want fascism and war—neither the Hitler brand, the Mussolini brand, the Churchill brand, or the latest product on the market—the ROOSEVELT DELUXE BRAND OF FASCISM.

You were not meant to die "defending the freedom of the seas" for Wall Street. Your sons were not born and raised to get their bellies blown open, their hearts ripped wide, their arms and legs shot off—all to see which ruling class shall subjugate and exploit colonial peoples.

You must act now to defend your country . . . to defend your life. You can prevent convoys, extension of naval patrols, an AEF, which will take you, your son, your husband, your sweetheart. But you must act quickly! Roosevelt is waging undeclared war—he is ready to send an AEF. All that can stop him is the organized, militant expression of the people's will to peace!

You can help defeat the war-makers by contributing to the Young Communist League Building Fund Drive. This money will be used to help organize Young America—to help America command peace!

HITLER PLANS NEW MUNICH

THE armed assault by German fascism and its satellites against the Soviet Union is an unprovoked criminal attack upon the greatest champion of peace, freedom and national independence—the land of Socialism. HITLER is calling upon his friends and supporters in all the capitalist countries to join hands in war against the Soviet Union, in war against the working people and oppressed masses throughout the world. The rulers of fascist Germany are dangling before the imperialists of all countries, especially in England and the United States, the vision of a new Munich, a new conspiracy to redivide the world at the expense of the peoples of all nations, to crush the Soviet Union, to exterminate democracy in Europe and to strengthen reaction throughout the world. This was the message Hoes brought to England. The friends of fascism in the United States and England are reaching out for this reactionary vision. The Scripps-Howard Press, just before the attack of Hitler began, cynically declared "That's one war we could really favor..." This is likewise the position of the Social-Democratic lickspittles of big capital, who have long been demanding war against the Soviet Union.

The American people—the workers, toiling farmers, the Negro masses, the middle-classes—all those who hate fascism

Friends:

The flames of war are spreading rapidly. Country after country is being sucked into the flaming inferno. New millions of peaceful people are suffering the horrors of war. The raging conflagration threatens to engulf the world.

One half of Mankind, 1½ billion people are already involved in the war. Armies of 20,000,000 men are engaged in deadly combat.

THE COST OF THE WAR

The cost of this war in human lives is terrifying. 100,000 Holland youth were slaughtered in 5 days of actual warfare. The "total war" has been unleashed finally in all its fury. It is inhuman mass murder. Thousands of airplanes fly overhead and tens of thousands of tanks race over the face of the earth like huge demented monsters. "War is hell", said General Sherman. "War is thrice hell" under present conditions.

The cost of this war in material wealth is staggering. Before the "total war" broke out, it cost England 30 million dollars per day, France one billion francs and Germany 60 million marks per day to maintain their armies. How many new homes, schools, roads, playgrounds, hospitals and parks could be built with this money to provide happiness instead of death to the people?

ON GUARD AGAINST "INCIDENTS"

We, Americans, should have the greatest sympathy for the unfortunate peoples of Europe. They are the innocent victims of the rival imperialist war-makers. But we, as Americans, must show the greatest determination to keep America at peace. This will be our best service to the worn-torn peoples of Europe.

Intense efforts are being made to whip up a war-spirit in our land. Hysterical head-lines, hysterical speeches over the radio and from the pulpit, are designed to create a psychology of hysteria and fear among the people.

Let us resolve as Americans, that through our united strength and collective will, we will not be stampeded into war. We will not permit any pre-arranged "incident" to catch us off guard and fling our country into the abyss.

THE MUNICH MEN HELPED HITLER

Hitler's Nazi armies are at present scoring some speedy victories. Hitler's armies are powerful, mechanized instruments of destruction. But his armies are far from being unbeatable, as present developments in France show.

Who helped build up Hitler's vast armies and provided him with the sinews of war?

The Munich men, Chamberlain and Daladier. The Munich men gave gratification to the Nazis, the peoples, the army, and the rich resources of Czechoslovakia, Austria. The Skoda munitions works, one of the greatest armaments plants in the world was given as a present to Hitler. Newspapers report that Hitler's best against the French are those made in Czechoslovakia. The Munich men repudiated and insulted 180,000,000 people of the Soviet Union and spurned their Red Army and Air Fleet.

BOTH SIDES EQUALLY EVIL

Chamberlain and Daladier gave great bloodless victories to Hitler. They tainted the foolish hope that Hitler would use his ruthless military machine

61-1 C X 0743 #162 America Must Give Its Answer To Hitler's Sinking of U. S. Ships

Three American ships have been attacked, two sunk, by Nazi U boats. Hitler is stepping up his campaign to intimidate the United States and drive its shipping from the seas.

At the same time thousands of Nazi agents are plotting conquest through our back door in Mexico and other Latin American countries. Hitler's partner, Japan, is now moving to take over all approaches to the United States on the Pacific. NEVER BEFORE WAS THE DANGER TO OUR NATIONAL EXISTENCE SO GREAT.

HITLER'S FIFTH COLUMN IN AMERICA

And yet friends of Hitler in this country, such as Lindbergh, Hoover and Wheeler, try to lull our people into a false sense of security by saying that since Hitler is occupied in fighting the Soviet armies he can be no threat to our own country. But Hitler's tactics since 1933 should be enough to convince the American people not to fall for this latest bluff.

When his armies moved into Austria he said he was going to stop there. This was his tune when he moved into Czechoslovakia, into Poland and the 15 other countries that he has enslaved since. His pattern is simply this: to single out his prospective victims, assuring the rest that he has nothing but love for them.

SHALL WE WAIT UNTIL THE DAGGER IS AT OUR OWN THROATS?

Should Hitler defeat the Soviet Union, Great Britain and China would soon follow. Then Hitler would be able to turn the resources of four continents against a United States standing alone in a Nazi world. Hitler's control of the Soviet Union would place his armies within six miles of U. S. territory.

NOW IS THE TIME TO RID AMERICA AND THE WORLD OF THE HITLER MENACE

All the American people have followed with hope and admiration the struggle by the Red Army and the Soviet people against the Nazi bandits. For the first time Hitler's blitz has been stopped. But now is no time to sit back and merely applaud. As President Roosevelt stated in his *1941 New Message*, "We must now move."

Declaration Issued by the Central Executive Committee of the Communist Party.

X0743

It is nearly one year since the armistice was signed. Peace! It was what an agonizing world had yearned for. Peace! It sent a thrill through the world, a thrill of joy and promise. No more dead. No more maimed. The mother could again kiss her son and the sweetheart her lover.

In all this joy at the coming of peace there was promise of finer things, of a new world, of international fraternity and a more human civilization.

Peace was granted Germany and Austria, ~~Poland~~ Bulgaria; but peace was not granted to Soviet Russia, where the workers were in control.

Why this war against the Russian people? They starved during the war; their dead and injured are more than of all the Allies put together. If the dead are the price of peace, then Russia paid the price in full.

But the "why" of war against Soviet Russia immediately was apparent. The diplomats of the Allies in the Peace Conference repudiated the ideals used during the war to make the people fight. The Peace Conference was not concerned with making the world safe for peace and democracy; it concerned itself with dividing the world economically, financially and territorially among the Great Powers,—France, England, Italy, Japan and United States. The Peace Conference divided the spoils; it was a peace of plunder, an imperialistic adjustment of power, a dagger thrust at the heart of the peace and liberty of the world.

Soviet Russia was a menace to this peace of plunder and oppression. Soviet Russia has repudiated Imperialism; it has repudiated annexations and wars of plunder; it believes in liberty of the peoples. Soviet Russia, in crushing its own Capitalism, is an inspiration to the workers of the world to crush all Capitalism.

So the Peace Conference declared war against Soviet Russia.

When the workers and peasants of Hungary organized their own Communist Government, the Peace Conference declared war against Soviet Hungary; and today the workers and peasants of Hungary are being starved and butchered by the Roumanian army, acting under the orders of the Peace Conference.

The military war against Soviet Russia proved a miserable failure. The Red Army, inspired by the ideal of Communist liberty for Russia and the world, has beaten back the counter-revolutionary forces.

But this war that Soviet Russia is compelled to wage in self-defense is a terrible agony. Instead of the factories producing shoes and clothes and agricultural machinery, they are forced to produce munitions. Instead of the men working in factory and mine, they are compelled to fight. Instead of the people's energy being used to build their new and finer civilization, they must use this energy for war against counter-revolution and aggression of the Allies.

WALL STREET USES FINLAND FOR WAR

9/18/41
121 HAIGHT STREET
SAN FRANCISCO, CALIF.
bre 1/15

The newspapers and radio commentators are giving the American people a heavy dose of war propaganda on the developments in Finland. The country is being drowned in a wave of war hysteria. Facts are obscured under a deluge of hysterical war-whooping and red-baiting. All the newspapers are united in carrying on a gigantic hypocritical drive aimed at the Soviet Union!

We Americans owe it to our own peace and security to dig below the surface, find the true facts, take our stand side by side with those millions throughout the world who are not afraid of the "threat of peace" as some of our "brass check" newspaper columnists put it.

Who is responsible for the conflict in Finland? What is the reason for the involvement of the Roosevelt government in the affairs of the Finnish ruling cliques? What is behind the propaganda drive against the Soviet Union, the only Socialist country in the world?

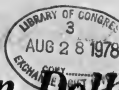

WHAT'S BEHIND THE ANTI-SOVIET CRUSADE?

The Finnish-Soviet conflict has been grabbed by British and American imperialism as an excuse for creating hostility toward the Soviet Union, by circulating an outrageous barrage of lies. Actually, the British war-makers trying to turn their war with Germany into an anti-Soviet war, are attempting to use Finland as the "moral issue." The plan to use Finland as the pretext to drag the whole world into a war against the Soviet Union is beginning to be admitted even by the press!

The influential United States News, edited by David Lawrence, well-known columnist, reported recently: "It is not impossible, say the realists at the nation's capital, that Prime Minister Chamberlain, with the hearty approval of President Roosevelt, is prepared to start action on a world union against the Soviet Union that will make the anti-Communist alliance of Germany-Italy-Japan and Franco look like small potatoes. Its purpose is to destroy the Soviet Union if possible . . . by a world war against Russia. The League of Nations which proved ineffective against the conquests of Germany, Italy and Japan, may become a League for war against Russia."

All events point to the truth of that statement. When the fascist aggressors invaded Ethiopia, Spain, Czechoslovakia, Chamberlain and Daladier allowed the League to lull off to sleep. But now that the Soviet Union acts to save her own security and in behalf of world peace, Chamberlain finds use for the League of Nations.

The Soviet Union's call to the League for action against aggression was sabotaged from 1934 onward by the very same delegates from London and Paris who are now so active in support of the Helsinki Government in Finland and who expelled the Soviet Union from the League in such haste. Chamberlain and Daladier sabotaged the proposals of the Soviet Union for joint action against aggression precisely because they hoped to divert this aggression against the Soviet Union. The Soviet-German Non-Aggression Pact frustrated their hopes, at least for the time being.

REGIMENTING AN ENTIRE NATION

REMEMBER AUGUST, 1914—the outbreak of the first World War?

Remember how we were told it was a war to make the world safe for democracy, that it was a "war to end war."

Remember how we believed what we were told!

YET—

Twenty-six years later, in 1940, world humanity is once again faced with the horror of destruction and death. The grave shadow of war hangs heavily over the heads of the American people.

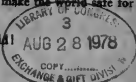

The Senate Military Affairs Committee has just approved a compulsory military training bill. The sweeping nature of this bill shows that it is not a measure for the peace and security of the American people.

Quite the contrary. It is a measure for war—for imperialist adventures—and it is designed to place the whole people in the straitjacket of military regimentation. All of the fascist militarization of the despised Burke-Wadsworth conscription bill is contained in this proposal.

Every adult male, between the ages of 18 and 64, would be required to register for military training. This amounts to 42 million men, virtually the entire male population of the country. How can the Republican and Democratic war-mongers argue that this super-mobilization of man-power is for "defense"? It would be senseless as contending that the ten billion dollars which Roosevelt is pouring into the coffers of Wall Street profiteers is for "defense." Obviously, this bill is not to defend our country from invasion as its war-mongering sponsors try to present it.

For under the guise of "defense," the Administration has thus proposed a police measure, in character and in operation. It would mean a gigantic espionage and political terrorist system against the working people of the country. As we pointed out before, the unconstitutional registration of the foreign-born population was only a beginning. Now the war-mongering reactionaries want it extended to native-born Americans—with the door wide open for finding a military pigeon hole even for the women.

With 42 million men under military lock and key, their democratic liberties blacked out, what will become of the people's organizations. This measure is intended to make shambles of labor, peace, youth and other organizations, and to break the back of the people's fight for security, peace and civil liberties. Men over 40 are considered by the callous employers as too old to work and are thrown into armies of

by Leland Stowe:

It is time to face the facts. The hour glass of the Anglo-American democracies is running lower than it has ever since the Declaration of Independence. The United States and Britain are in immediate danger of losing this war—and can lose it in the next 40 days.

This is not hysteria. We need only consider what is now in jeopardy and what may happen—what threatens to happen—by Sept. 15, unless American and British armed forces do something about it.

Germany's offensive needs only to smash onward at the pace it maintained through July for another 40 days, and the Nazis will have conquered all of the northern Caucasus and seized priceless Russian oilfields and refineries at Grozny and Baku. That would give the Nazis' war machine control of more than three times as much oil production as they now have in Rumania, more than twice what Iran produces annually, five times as much oil as the Mosul fields in Iraq produce annually.

The oil of Baku and Grozny alone might enable Hitler to win

EXCHANGE & GIFT DIVISION*America's Stake in a
Second Front Now!***1. QUESTION: Why is a Second Front Necessary NOW?**

ANSWER: Hitler and the high command have always feared fighting on two fronts. They know that Germany was defeated in the last war and can be defeated in this war by being forced to fight on two fronts. A second land front in Europe would compel the Nazis to divide their forces; it would give the United Nations the initiative; by squeezing the body of the Axis octopus between the Red Army and an Anglo-American expeditionary force the Axis tentacles in Libya, the Atlantic and the Pacific would loose their grip.

A Second Front can mean victory in 1942 if it strikes while Hitler's major forces are engaged in the East, while Western Europe is denuded of troops. But time works on Hitler's side. Today patriots in conquered countries sabotage production, heroically resist slave rule, prepare to rise in support of an invading army. But every day that passes Gestapo terror massacres more anti-fascists and organizes more production for the Hitler war machine. Every day that passes these potential allies grow weaker, hungrier. Delay means facing a Nazi army that grows stronger, not weaker. Delay means sacrificing lives of valued allies in conquered countries, lowering their morale, their faith in allied intervention. Delay condemns Britain's and America's well-armed, well-trained troops to demoralizing inertia.

A Second Front must be opened now not only to relieve the Soviet armies and people who have so magnificently borne the brunt of Hitler's attack for fourteen months and suffered 5,000,000 casualties. It must be opened to save the United Nations from catastrophe.

Stop the War Against the Soviet Union!

#183

AUG 28 1978

In Manchuria the forces of imperialism are ready for the attack on the Soviet Union. Each day finds the Japanese army creeping closer and closer to the borders of Soviet Siberia. The United States while sending "Diplomatic" notes is **shipping munitions and poison gas to Japan**. American **and Japanese** generals boast of seizing Siberia, while "White Guard" armies are being equipped with American ammunition as the **advance guard of imperialism**.

On the western border of Soviet Russia, Poland and Roumania make feverish preparations for war. Bloody Pilsudski of the Polish Army is now made the Commander-in-Chief of the Roumanian Army. At the same time the representative of the Polish General Staff comes to Washington for **secret instructions**.

THEY ARE WAITING FOR THE SIGNAL TO ATTACK!

The U. S. Dept. of Commerce as a direct result of the secret agreement with Premier Laval of France, starts the economic and credit blockade against the Soviet Government. The Soviet Government is buying machinery at the rate of one million dollars a day. These orders are offered to the American manufacturers and would mean work for hundreds of thousands of unemployed.

The Department of Commerce warns American manufacturers not to grant credits **because war is in**

helm in Great Britain giving "Communist" Macdonald in support of Japanese imperialism.

The United States together with the League of Nations though hiding behind the "smoke screen" of peace is making further preparations for war. American troops stand by in Tientsin while Japanese soldiers shoot down the Chinese people. **Policy the imperialist cohorts of the world are following China. Their next step is the Soviet Union.**

WAR against the Soviet Union means war to bring back Czarism.

WAR against the Soviet Union means to take away the factories from the workers, and the land from the peasants.

WAR against the Soviet Union means an attempt to crush the only Workers' Republic and bring back capitalist exploitation.

The Soviet Union has existed fourteen years without LANDLORDS AND BOSSES.

The Soviet Union has done away with unemployment at a time when 40 million unemployed in the capitalist countries are facing starvation.

In the Soviet Union there are wage increases, shorter hours, better homes, and a better world.

160 millions are building Socialism. One-sixth of the world is building a new order without exploitation. The Soviet Government shows the workers

The Threat to Peace

"There can be no peace if the reign of law is to be replaced by a recurrent sanctification of sheer force.

"There can be no peace if national policy adopts as a deliberate instrument the threat of war.

"There can be no peace if national policy adopts as a deliberate instrument the dispersion all over the world of millions of helpless and persecuted wanderers with no place to lay their heads.

"There can be no peace if humble men and women are not free to think their own thoughts, to express their own feelings, to worship God.

"There can be no peace if economic resources that ought to be devoted to social and economic reconstruction are to be diverted to an intensified competition in armaments which will merely heighten the suspicions and fears and threaten the economic prosperity of each and every nation."
